INVITATION

Dear colleagues,

The purpose of Chinese Academy of Fishery Sciences to create the Forum on Fishery Science and Technology is to setup a high level platform for scientists in China as well as around the world to exchange their newest research fruits, to share their experiences and achievements in the development of fisheries and aquaculture with other countries. The forum has been supported by many fisheries and aquaculture scientists in the world since 2003 and played an important role in promoting the development of fishery science and technology.

The Forum on Fishery Science and Technology has been organized on a one-year basis. 2008 Forum on Fishery Science and Technology will focus on the key fields as follows:

- Aquaculture carrying capacity and ecological balance
- Ecological environment adjustment and restoration
- Eco-friendly fishing gear
- Rational exploitation and management for fisheries resources
- Seed source and germplasm improvement for aquaculture
- Food safety and fishery ecology

and correlative new concept, new technology and new method.

On behalf of Chinese Academy of Fishery Sciences, I sincerely invite you to participate in 2008 Forum on Fishery Science and Technology.

Zhang Hecheng
President
Chinese Academy of Fishery Sciences

Language

The language of the Forum is English and Chinese

Date

September 25-27, 2008

Venue

Shanghai, China (Accommodation will be announced later)
