

**FAO/NACA/ Government of Brazil
Expert Workshop on Guidelines for Aquaculture Certification
July 31 – August 3, 2007. Marina Park Hotel, Fortaleza, Brazil**

Background:

The expert workshop on guidelines for aquaculture certification is organised by FAO and NACA, and hosted by the Government of Brazil, in response to the recommendations of the Aquaculture Sub-committee (ASC) of the FAO Committee on Fisheries.

This workshop is the second in a series of expert meetings to assist the development of guidelines for aquaculture certification, being hosted in Brazil, with a strong emphasis on aquaculture products from aquaculture producers in the Americas.

Further background is provided in a separate Concept Note available at www.enaca.org/certification.

Workshop Purpose:

The purpose of the workshop is to bring together diverse stakeholders involved in aquaculture certification to continue the process of preparation of the international guidelines for certification of aquaculture products as mandated by the COFI Aquaculture Sub-committee.

Expected Outputs:

The expected outputs from the workshop, driven by the discussions and perspectives of the participants, are as follows:

- Stakeholders in the Americas brought together to contribute to development of guidelines on certification of aquaculture products.
- Aquaculture certification status and potential clarified and key issues and constraints identified for the Americas region.
- Further consensus built on the draft guidelines for certification of aquaculture products.
- Agreement reached on a continued process of working together among stakeholders to develop/complete the guidelines

Workshop Organisation:

The workshop will be held in Marina Park Hotel, Fortaleza, Brazil, involving 50-60 invited participants with different experiences and perspectives on certification of aquaculture products. The workshop discussions will be informed by a draft set of aquaculture certification guidelines developed from the Bangkok workshop, and a selected number of experience presentations from participants. All participants will be invited to bring documentation and other materials describing certification programs, and experiences in aquaculture certification. The major part of the workshop however will be spent on discussions and working together, rather than presentations, and further development of the aquaculture certification guidelines.

The draft program and preliminary list of background papers is attached.

Draft Workshop Program

DATE/TIME	ACTIVITY
31 July 2007	
Opening Ceremony	
09.00 – 09.30	Opening remarks Address by FAO Address by NACA Address by the Hon. Minister of Aquaculture and Fisheries, Brazil
