[Key Characteristics](#) | [Introduction](#)

## Key Characteristics

Key characteristics of the ASEM process include:

- its **informality** (complementing rather than duplicating the work already being carried out in bilateral and multilateral fora);
- its **multidimensionality** (devoting equal weight to political, economic and cultural dimensions)
- its **emphasis on equal partnership**, eschewing any "aid-based" relationship (taken forward under our bilateral relations) in favour of a more general process of dialogue and cooperation
- its **high-level focus**, stemming from the Summits themselves.

## Introduction

The origins of the ASEM process lay in a mutual recognition, in both Asia and Europe, that the
